

Term

	Xenophagy -	1 / 5
	Uterus Development -	2 / 54
	Ureter Maturation -	1 / 6
	Thyroid-stimulating Hormone Signaling Pathway -	1 / 5
	Thymic T Cell Selection -	1 / 6
	Tetrapyrrole Catabolic Process -	1 / 3
	T Cell Cytokine Production -	1 / 6
	Suppression of Blood Coagulation in Another Organism -	2 / 28
	Response to Thyrotropin-releasing Hormone -	1 / 5
	Response to Interferon-alpha -	1 / 6
	Response to Human Chorionic Gonadotropin -	1 / 5
	Regulation of T-helper 2 Cell Cytokine Production -	1 / 6
	Regulation of T Cell Cytokine Production -	1 / 6
	Regulation of Interleukin-5 Production -	1 / 6
	Regulation of Interleukin-13 Production -	1 / 6
	Regulation of Hormone Metabolic Process -	2 / 82
	Regulation of Glial Cell-derived Neurotrophic Factor Receptor Signaling Pathway Involved in Ureteric Bud Formation -	1 / 6
	Regulation of Fibroblast Growth Factor Receptor Signaling Pathway Involved in Ureteric Bud Formation -	1 / 6
	Regulation of Dna Demethylation -	1 / 6
	Regulation of Cellular Response to X-ray -	1 / 6
	Regulation of Cell Proliferation Involved in Mesonephros Development -	1 / 6
	Pro-t Cell Differentiation -	1 / 6
	Positive Regulation of Type 2 Immune Response -	1 / 6
	Positive Regulation of T-helper 2 Cell Cytokine Production -	1 / 6
	Positive Regulation of T Cell Cytokine Production -	1 / 6
	Positive Regulation of Interleukin-5 Production -	1 / 6
	Positive Regulation of Interleukin-13 Production -	1 / 6
	Porphyrin-containing Compound Catabolic Process -	1 / 3
	Pigment Catabolic Process -	1 / 2
	Negative Regulation of Mammary Gland Epithelial Cell Proliferation -	1 / 6
	Negative Regulation of Interleukin-2 Production -	1 / 6
	Negative Regulation of Glial Cell-derived Neurotrophic Factor Receptor Signaling Pathway Involved in Ureteric Bud Formation -	1 / 6
	Negative Regulation of Fibroblast Growth Factor Receptor Signaling Pathway Involved in Ureteric Bud Formation -	1 / 6
	Negative Regulation of Dna Demethylation -	1 / 6
	Negative Regulation of Cell Proliferation Involved in Mesonephros Development -	1 / 6
	Ncrna Metabolic Process -	4 / 487
	Lipid Ubiquitination -	1 / 4
	Lipid Modification By Small Protein Conjugation -	1 / 4
	Interleukin-5 Production -	1 / 6
	Interleukin-13 Production -	1 / 6
	Histidyl-trna Aminoacylation -	1 / 2
	Heme Oxidation -	1 / 2
	Heme Catabolic Process -	1 / 2
	Golgi to Secretory Granule Transport -	1 / 1
	Glial Cell-derived Neurotrophic Factor Receptor Signaling Pathway Involved in Ureteric Bud Formation -	1 / 6
	Fibroblast Growth Factor Receptor Signaling Pathway Involved in Ureteric Bud Formation -	1 / 6
	Cellular Response to Thyrotropin-releasing Hormone -	1 / 5
	Cellular Response to Interferon-alpha -	1 / 6
	Cellular Response to Glycoprotein -	1 / 5
	Cd4-positive, Alpha-beta T Cell Cytokine Production -	1 / 6

Pvalue (-log)
